

Testimonials

At SongSeeds, we value honest feedback. We strive to provide the best experience we can for participants by listening to what they have to say about our retreats. Here are some of the anonymous comments from our August retreat...

'Thank you for such an amazing retreat! It gives a great push to actually create, setting aside the space but also is like a giant encouraging nudge'

'Great! Really good to be in a space where you're encouraged to be creative, experiment and try things out, and where you know there will be a supportive response, but also suggestions for improvement'

'The feedback times felt almost like group 'song surgeries' which was so so helpful. I learned a lot from listening to other people's songs and feedback too'

'Variety of the days worked well and the space to work in my own way in a relatively flexible structure. Also, the creation of a safe space to get honest feedback'

'I loved the experience of focusing on the intricacies of my songwriting and both being encouraged in what I'm already doing well and being very clearly guided on how to develop'
